Why should <u>you</u> wear and use correct PPE at work or home?

Ask Dave in Virginia. Dave came out of it just fine--thanks to his full-face helmet. No facial reconstruction was needed. In fact Dave was wearing full protective gear gear and was able to ride home!

What would have happened had he been wearing a three-quarter helmet or, worse yet, a "shorty?" Be smart use the correct PPE for the task at hand and live to tell t
